FRISCO POLICE DEPARTMENT JOINS CRIMEWEB.NET

September 5, 2007 (Frisco, Tx.)

The Frisco Police Department has contracted with Citizen Notification Service to make the Crimeweb.net available for Frisco citizens to receive information from the Frisco Police Department. The Crime Web system will allow the Frisco Police to email residents information on such topics as major crimes, registered sex offenders, missing children/adults, school safety information, community information, and homeland security information.

Crime Web is a centralized clearinghouse used by public safety agencies across the nation to distribute information to the communities they serve. The patented Crime Web process is the most effective method of delivering information to a targeted population of citizens.

Citizens can sign-up for free at www.crimeweb.net and receive specific alert types from any geographical area that is of interest to the subscriber. Crime Web's patented technology and proprietary zip code engine allows a subscribing agency to distribute alerts anywhere in the country. Alerts can be sent to citizen subscribers in specific zip codes, up to 99 miles around a specific zip code or to all registered users located geographically between two zip codes.
