FOR IMMEDIATE RELEASE

Decatur, Texas Police Join the CrimeWeb Network

July 1, 2007, Mesquite, TX - Citizen Notification Service (formally CrimeWeb Network) recently added another Texas law enforcement agency to the list of dozens of agencies from that state using CrimeWeb to keep their citizens informed.

On July 1, 2007 the Decatur Police Department signed a contract to begin using CrimeWeb in their community. The CrimeWeb system will allow the Decatur Police to email residents about major crimes, registered sex offenders, missing children/adults, school safety information, community information and homeland security information.

About CrimeWeb

CrimeWeb is a centralized clearinghouse used by public safety agencies across the nation to distribute information to the communities they serve. The patented CrimeWeb process is the most effective method of delivering information to a targeted population of citizens.

Citizens can sign-up for free at www.crimeweb.net and receive specific alert types from any geographical area that is of interest to the subscriber. CrimeWeb's patented technology and proprietary zip code engine allows a subscribing agency to distribute alerts anywhere in the country. Alerts can be sent to citizen subscribers in specific zip codes, up to 99 miles around a specific zip code or to all registered users located geographically between two zip codes.
