FOR IMMEDIATE RELEASE

CrimeWeb Adds It's First Montana Law Enforcement Agency.

May 31, 2006 – Fort Worth, TX - Great Falls, Montana has become the first public safety agency in Montana to team-up with The CrimeWeb Network, the leader of e-mail based alert notifications. Great Falls police will utilize CrimeWeb to quickly and efficiently disseminate critical information to the citizens they serve.

Alerts are created and distributed via an online web page interfaced with the national CrimeWeb.Net clearinghouse. The agency selects the type of alert and the target area of distribution using CrimeWeb's proprietary zip code distribution engine. The alerts can be created using any standard desktop or mobile computer that has Internet access.

Citizens register (FREE of CHARGE) to receive the specific type of alerts at www.CrimeWeb.Net. The alerts can be delivered to any computer, cell phone, pager or other device that is web-enabled. Citizens can also provide feedback on specific alerts directly to the police agency.

Great Falls joins police agencies from twelve other States in using the CrimeWeb Network to distribute alerts regarding public safety related information.

About CrimeWeb:

CrimeWeb is a centralized clearinghouse used by public safety agencies across the nation to distribute information to the communities they serve. The patented CrimeWeb process is the most effective method of delivering information to a targeted population of citizens.

Citizens can sign-up for free at www.crimeweb.net and receive specific alert types from any geographical area that interests them. CrimeWeb's patented technology and proprietary zip code engine allow a subscribing agency to distribute alerts anywhere in the country. Alerts can be sent to citizen subscribers in specific zip codes, up to 99 miles around a specific zip code or to all registered users located geographically between two zip codes.

For more information, contact CrimeWeb on-line at www.crimeweb.net or call 1-888-33CRIME.
