FOR IMMEDIATE RELEASE

Log On for Crime Information

Watagua, Texas – Wouldn't it be convenient to be able to log on to a website and be informed of criminal activity in your neighborhood? The Watagua Department of Public Safety now offers a way to interact with citizens using internet technology.

CrimeWeb.Net is a viable tool for law enforcement and other safety agencies to communicate to the public. It is an inexpensive system that is used to notify citizens with information concerning public safety. Watagua recently joined - with other DFW agencies - in the CrimeWeb program. The service is offered free to citizens and enables them to receive alerts such as missing children, missing adults, major crimes, homeland security, school information, and community information alerts directly in their inbox.

When an alert is created on the system by a law enforcement user, it is automatically assigned an ID number and then broadcast via e-mail to all registered users who have requested the information from the city's police department. Citizens can register by visiting www.crimeweb.net or by contacting the Watagua DPS Crime Prevention Office.

CrimeWeb.Net is poised to service law enforcement and the public's need to disseminate vital information on a selected or universal basis. **For more information, contact CrimeWeb on-line at www.crimeweb.net or call 1-888-33CRIME.**
